## Professional Summary

Computer Science undergraduate with strong CS fundamentals and hands-on experience building full-stack applications with React, Next.js, Node.js, and MongoDB. Skilled in integrating AI APIs and implementing secure authentication; seeking a Software Engineering or Full Stack Development internship.

## Education

**Chitkara University, Punjab, India**

**2024 – 2028**

*Bachelor of Engineering in Computer Science, CGPA: 8.47 / 10*

## Technical Skills

- **Languages:** JavaScript, TypeScript, C++, Java, HTML, CSS
- **Frontend:** React, Next.js, Redux Toolkit, Tailwind CSS, Responsive Design
- **Backend & Databases:** Node.js, Express.js, REST APIs, MongoDB, Supabase, Auth & Authorization
- **Tools:** Git, GitHub, VS Code, Auth.js, Google Gemini AI, Groq API

## Experience

**Tripple One Solutions**

**May 2026 – June 2026**

*Web Development Intern*

- Engineered responsive user interfaces with HTML, CSS, JavaScript, and React, diagnosing and resolving frontend performance bottlenecks to improve page load efficiency.
- Collaborated with a cross-functional development team through code reviews and shared task tracking to ship frontend features on schedule.

**DGIT Squad Organization**

**July 2025 – Present**

*Organization Team Member*

- Coordinated logistics, scheduling, and cross-team communication for technical events and developer-facing workshops.

## Projects

**Code Review AI**

[code-review-ai-blond.vercel.app](https://code-review-ai-blond.vercel.app)

*Next.js, TypeScript, MongoDB, Auth.js, Google Gemini AI, Tailwind CSS*

- Architected a full-stack platform that generates structured code reviews by integrating the Google Gemini AI API with a Next.js 15 and TypeScript codebase, using Auth.js v5 for authentication, MongoDB for data persistence, and a Tailwind CSS dashboard with history search and filtering.

**Attendance Tracker**

<https://markd-attendance-tracker.onrender.com/>

*React, Supabase*

- Built a student attendance management system with React and Supabase, enabling real-time data synchronization and a live analytics dashboard with session filtering and full CRUD functionality.

**Developer Portfolio**

[portfolio-website-zeta-seven-42.vercel.app](https://portfolio-website-zeta-seven-42.vercel.app)

*Next.js, TypeScript, Tailwind CSS*

- Developed a responsive, SEO-optimized personal portfolio using Next.js and TypeScript with a modern, accessible Tailwind CSS UI and fast load performance.

## Certifications

- Prompt Design in Vertex AI – Google Cloud
- Build Real World AI Applications with Gemini and Imagen – Google Cloud
- Artificial Intelligence Certification – Infosys Springboard
- Python Foundation Certification – Infosys Springboard
